Java Developer

<https://github.com/sohel-samm>

## SUMMARY

Dedicated Java Developer with 2 years of experience in designing, developing, and implementing software solutions using Java technologies. Seeking to leverage expertise in Java programming, object-oriented analysis and design, and problem-solving skills to contribute to the success of a dynamic team

## EDUCATION

### Visveswarayya Technological University

Bachelor of Engineering Degree in Computer Science  
2017 – 2021

## SKILLS

- Programming Languages: Java, SQL
- Frameworks/Libraries: Spring boot, Hibernate
- Web Technologies: HTML, CSS, JavaScript
- Tools/IDEs: Eclipse, IntelliJ IDEA, Maven, Git, Bitbucket, Jenkins
- Databases: MySQL, PostgreSQL
- Operating Systems: Windows, Linux
- Problem-solving skills and attention to detail
- Strong communication and teamwork abilities

## CERTIFICATIONS

- AWS certified Cloud practitioner
- Microsoft Azure fundamentals

## PROFESSIONAL EXPERIENCE

### Java Developer

TCS | 2022- Present

- Designed and implemented RESTful APIs to facilitate communication between different components of the application.
- Collaborated with cross-functional teams to analyze requirements and translate them into technical solutions.
- Conducted code reviews and provided constructive feedback to team members to ensure code quality and adherence to coding standards.
- Participated in the full software development lifecycle including requirements gathering, design, development, testing, and deployment.
- Troubleshooted and resolved technical issues in a timely manner to ensure smooth operation of applications in production

### System engineer

TCS | 2021 - 2022

- Managing Non-production environment for system Integration testing.
- Monitor and maintain server health, ensuring uptime and performance.
- Manage deployment of production changes and updates smoothly.
- Support testing teams during integration tests and promptly resolve issues.
- Facilitate cross-team communication and collaboration effectively.
- Implement security measures, including SSL/TLS certificate deployment.
- Maintain documentation and generate reports for process visibility.
- Drive continuous improvement initiatives for streamlined operations.
- Collaborate closely with cross-functional teams in a supportive environment.
